BUSINESS AND ANTICIPATED BUSINESS PLAN

7. Describe in detail the business of the issuer and the anticipated business plan of the issuer.

(D) BUSINESS DESCRIPTION AND PLAN

What we do (Business Description)

Viking Strength Supps, LLC is a lifestyle brand located in Savannah, GA. We began as a Personal Training and Coaching business, grew organically into building our own brick and mortar facility, and have expanded into the Supplement market within the last year. We have taken an organic and natural approach to supplements because we believe that simplicity tends to be more beneficial to the end user, and more cost effective for us.

Our first product we brought to market is called Stormbreaker. It is an Egg White protein powder. This product was developed to offer an option other than Whey protein, which is the market standard for protein powder. Whey protein contains dairy and frequently causes digestion issues and bloat. Lactose-intolerance, lactose malabsorption and milk/dairy allergies are surfacing more and more across the world. Additionally, Whey protein has less bioavailability than Egg White protein. Simply put, this means that if a user consumes the same amount of both a Whey protein and an Egg White protein, they will absorb more nutritional value from the Egg White Protein. Our Stormbreaker Protein has only 4 ingredients. We currently offer Chocolate and Vanilla only. As we expand our flavor availability, we are dedicated to keeping ingredients as simple and minimal as possible to provide the best outcome for our consumers.

After launching Stormbreaker and having wonderful feedback from our customers over the last 10 months, we decided it is time to expand our product catalogue. In addition to formulating 2 new flavors (Plain and Cookies & Cream), we are adding some other useful basics including Creatine Monohydrate, Fish Oil, and Natural Caffeine. These items require minimal labor to produce, are cost effective to acquire, and have a high demand among our growing customer base.

It is our goal to expand to larger markets and grow our community of strength and empowerment.

We have built an ambassador program and taken on a handful of high-level sponsored athletes to help promote our brand. We are always looking to grow this and get our products into as many hands as possible, and have high visibility within this industry.

We are raising money to put a team in place so we can expand all aspects of our business. In the beginning our organization was small enough for us to wear all the "hats", but we know our limits. We are currently doing all production in-house with only a 3 person team. This includes everything from making the products, packaging, labeling, social media/marketing, and fulfillment. We need to scale up production on our supplement line as we have new products to bring to market and more markets we wish to infiltrate. If we surround ourselves with a great

team, there is no reason we won't succeed. An investment in a company is an investment in the people. In this case, team work will truly make the dream work.

Meet the Team (Management)

(1) Nathaniel Korpusik OWNER

Nate Korpusik is a combat veteran, entrepreneur, elite powerlifter, and an extremely passionate individual when it comes to fitness or mental health. Nate's role in this organization is co-owner. He is a good fit because of the passion he has for this industry. Nate has spent time working in the supplement industry and learned a lot about what companies are doing right and wrong. Match that with his 10 years in the medical field (EMT in Boston, MA) and he is a great fit with this organization.

Nate brings with him the kind of patience and ambition that comes only from a background like his. With many certifications ranging from personal training to powerlifting coach, he also brings years of knowledge about fitness to the organization.

(2) Kathryn Mabe, CO-OWNER

Kathryn brings another range of skills to the group. She went to college at UFC for Entrepreneurial Management and has continued to gather certifications and skills in the fitness and business industries. Without fear she has tackled all the major issues that come with building a startup. Katt has been training people for almost a decade and holds the title of international elite powerlifter. She is currently ranked 18th in the nation. A number we are proud of because it reflects her persistence and ambition.

Kathryn also brings an artistic mindset to the organization. With her creativity and artistic mindset we are able to relate to the marketplace and give our message the correct image to go along with it.

How we make money (Business Model)

We make money in a few different ways.

Pricing: We price according to the market and competitors as well as adjust for our costs. We have been competitive.

Ambassador: Our ambassador program has been the main driving force. Recruiting others and giving them a percentage of each sale has been integral in expanding the word about our product.

Paid ads: We have recently adjusted our approach to this. In partnership with our business advisors we are retooling our advertising campaign and going to be doing a mix that involves paid online ads on sites like LinkEd in.

Social Media: We have a large following on social media and we continue to grow it with our social media team. With an investment we wish to expand our social media team.

Who uses our product (Market)

Already we have sold to all ages and people of varied backgrounds and internationally. Although that is still a small part of our operation. The supplement market in 2020 had over \$140 Billion in revenue. This market is expected to grow by 8.6% compounded annually.

Within this market are athletes, gym goers, casual fitness enthusiasts, and regular people who just want to get healthier. There is a large problem in the world today, especially in the U.S. where obesity and unhealthy choices run wild. We want to empower those people (which can be anyone) to become stronger both mentally and physically.

Who are our competitors (Competition)

Redcon One: A large supplement company who primarily makes protein from Whey sources and animal byproducts. They are different in that we use only egg white protein and are over 90% pure (compared to their similar products at 84% pure). We also boast organic and all natural ingredients with an easy to read label with only four ingredients.

Jay Robb Egg White Protein: Another egg white protein brand. They are higher priced than us and we believe that is due to the fact that they use a lot of ingredients in their product and they use non natural and non organic ingredients.

Why will you succeed? (1 - 2 sentences)

We will succeed by believing in ourselves and the product and getting others to believe as well. We will run a clean and honest business with the best practices. We will always do research and employ people to cover areas of the business that they are best suited to run. Success is nothing without perseverance. And we have that.

Owner Story

Meet the founder of Viking Strength Sports LLC, Nathaniel Korpusik

What inspired you to create your startup?

We created these products and this business because we needed it. That was the inception. Then we realized, a lot of people need it. We have found a community growing around our products that brings people together from all walks of life. Something that nowadays is rare.

We needed this protein to be pure and natural and work better than the others. So we made it. We built a gym that breaks all the norms and so we built it. We needed a lifestyle that brings people together instead of pushing them apart. So we built it. And along the way, a lot of people realized that they needed it too.

Why not be better than the other companies out there? It isn't easy, and it will be hard. But that's part of why we like it.

What has been your favorite part about building your company?

Watching it grow around us from inception to over \$300,000 in total revenue. A lot of people didn't think that it would come true and so far we have completed all of our goals to date and set newer, higher goals.

We also like how it has sharpened us humans and our ability to reflect on what we have done and what we need to do. It has seriously increased our skill sets and we both crave knowledge.

What has been your biggest obstacle so far?

Our biggest problem so far has been scaling up. A few people can only do so much. And we realize that. We spend many hours per day wearing all the hats of a company and have just recently been able to delegate out to a small team, which we need to keep growing.

Why should people invest in your company?

Long story short, the people in the company are what an investor would be investing in. I truly believe that a real investment is only going to help a strong team with proper delegation. With hiring people to work in their specific fields, we feel the company will be poised for major growth. Passion and persistence are rare in people nowadays. With many people saying "someday I will do this". In my opinion, someday means never.

So the people are where the investment will be spent along with portions going to marketing and inventory and business development. But each of those require the right people to drive them.

The financial forecasts included are created using reasonable assumptions based on stable economic and market conditions among other factors. Even with stable economic and market conditions, the business cannot predict what will in fact happen in the future including default or bankruptcy.

RISK OF CHANGES IN ECONOMIC CONDITIONS. Factors not controlled by the business like pandemics, environmental disasters, economic recessions, changes in regulations, changes in interest rates, changes in credit markets, changes in capital market conditions, declining employment, changes in real estate values, changes in tax policy, changes in political conditions, and wars, among other factors are unpredictable and could negatively affect the can impact the business's ability grow and operate.

RISK OF TAX CONSEQUENCES. Your investment returns will be taxed and may bring your overall income or net worth over a particular tax bracket. Please discuss the potential tax consequences of your investments with a tax consultant.

RISK OF FUTURE FUNDING. The company may require additional funds in the future to expand or continue operations. If the company is unable to obtain additional funding when needed, it could be forced to delay its business plan or even cease operations altogether.

RISK OF LIABILITY OR LEGAL RECOURSE. The business may act negligently in their day to day operations that could injure a customer or an employee in which legal recourse may be necessary. Due to the cost of lawsuits and legal resources, an event such as this could cause the company to cease operations or file for bankruptcy.

RISK OF OFFERING LIMITED SERVICES. The company offers limited services that attract a particular type of consumer which makes the business vulnerable to consumer preference or trends.

RISK OF LACK OF ACCOUNTING CONTROLS. Small businesses, in general, may not have the resources or expertise to implement strict accounting controls. This can expose an early-stage startup to liability and miscalculation of financial growth.

RISK OF COMPETITION. The business operates in a very competitive market that can make

it hard for them to have the traction they need to survive as a business. They compete with many other businesses, both large and small, on the basis of quality, price, location, and customer experience, all of which could negatively impact financial performance. Competition in a saturated market is a key reason many businesses in this space fail.

RISK OF MANAGEMENT RELIANCE. As a Crowd SAFE holder without voting power, you will not be able to participate in the company's decisions that will determine the future of the company. You will be fully reliant on the executive management team and board of directors to make the proper judgement calls to make this business a success. Furthermore, if the founders or other key personnel of the company were to leave, or become unable to work, the company may be negatively impacted.

RISK OF NOT SELLING YOUR INVESTMENT. You cannot sell your Crowd SAFE for 12 months after you acquire them. Even after that one-year period, a host of Federal and State securities laws may limit or restrict your ability to sell your securities. Even if you are permitted to sell, you will likely have difficulty finding a buyer because there will be no established market.

RISK OF NO REGISTRATION UNDER SECURITIES LAWS. The investment will not be registered with the SEC or the securities regulator of any State. Thus, neither the company nor the investment will be subject to the same degree of regulation and scrutiny as if they were registered.

RISK OF INCOMPLETE OFFERING INFORMATION. Title III does not require us to provide you with all the information that would be required in some other kinds of securities offerings, such as a public offering of shares that generally provide investors with quarterly and annual financial statements that have been audited by an independent accounting firm.

RISK OF LACK OF ONGOING INFORMATION. The company will be required to provide some information to investors for at least 12 months following the offering. However, this information is far more limited than the information that would be required of a publicly-reporting company; and the company is permitted to stop providing information in certain circumstances.

RISK OF UNINSURED LOSSES. The company may not be insured to protect against all risks to the business. Additionally, there are some kinds of risks that are very difficult or impossible to insure against. The company could incur an uninsured loss that could damage the business.

RISK OF CHANGES TO LAWS. Changes in laws or regulations, including but not limited to zoning laws, environmental laws, tax laws, consumer protection laws, securities laws, antitrust laws, and health care laws, could negatively affect the company's financial performance or ability to continue to operate. Specifically, any additional regulation on the industry could negatively impact the business. This applies at federal and local levels.

RISK OF FUTURE INVESTORS HAVING SUPERIOR RIGHTS. If the company needs more capital in the future and takes on additional investors for financing, the new investors might have rights superior to yours. For example, they might be investors with preferred shares with voting rights that give them a greater voice in management, or otherwise.

RISK OF COVID-19 IMPACT. The ongoing COVID-19 pandemic may impact the company's ability to generate revenue and/or continue operations. If operations are ceased due to COVID-19 controls, the company can not guarantee that it will resume operations in the future.

RISK OF REAL ESTATE RISK. Company is still in the process of securing or extending a lease, which will be necessary to conduct operations. To the extent they are unable to find and secure a location that is adequate, investors may lose some or all of their investment. This risk especially applies to brick and mortar businesses.

RISK OF HAVING A LIMITED OPERATING HISTORY. The company is relatively young and has limited operating history as opposed to an established entity. Having a limited operating history may make it difficult to predict the accuracy of the financial forecast given.

RISK OF INVESTING IN LLC. Investing in an LLC can be more risky due to less definition behind rights and controls of an LLC unit versus common shares in a corporation.

RISK OF TWO MAJORITY OWNERS. Investing in a business that has two majority owners can limit strategy and decision-making to the majority stakeholders. The success of this business is reliant on the right decisions made by the two majority stakeholders.

RISK OF CROWD SAFES. Investing in Crowd SAFEs may be risky because they are not officially securities but instead a contract and promise to future equity. If the finance event trigger never occurs, then the Crowd SAFEs may never convert into equity in the business.

RISK OF AMBASSADOR PROGRAMS. Ambassador Programs may bring additional risk and liability to the business due to the actions of the ambassadors from a marketing perspective. The Brand Ambassadors may represent the business in a negative light hurting its sales and brand. If the business is highly dependent on Brand Ambassadors to succeed, then the business may fail if the Brand Ambassadors are poorly managed or if they hurt the brand with a bad image.

Effect of Other Securities Offered

The sale of additional equity-based securities could have rights that are superior to those in this offering. For example, the startup can offer preferred shares with voting rights to later investors.

Dissolution

If there is a Dissolution Event before the termination of this SAFE, the Investor will automatically be entitled to receive a portion of Proceeds equal to the Cash-Out Amount, due and payable to the Investor immediately prior to the consummation of the Dissolution Event, subject to the Crowd SAFE terms.

Liquidity Event

If there is a Liquidity Event before the termination of the Crowd SAFE, then the investor will be entitled to receive a portion of proceeds, due and payable to the Investor immediately prior to, or concurrent with, the consummation of such Liquidity Event, equal to the greater of (i) the Purchase Amount (the “Cash-Out Amount”) or (ii) the amount payable on the number of shares of Common Stock equal to the Purchase Amount divided by the Liquidity Price.

Liquidation Priority

In a Liquidity Event or Dissolution Event, the SAFE is intended to operate like standard non-participating Preferred Stock. The Investor’s right to receive its Cash-Out Amount is:

- (i) Junior to payment of outstanding indebtedness and creditor claims, including contractual claims for payment and convertible promissory notes (to the extent such convertible promissory notes are not actually or notionally converted into Capital Stock);
- (ii) On par with payments for other SAFEs and/or Preferred Stock, and if the applicable Proceeds are insufficient to permit full payments to the Investor and such other SAFEs and/or Preferred Stock, the applicable Proceeds will be distributed pro rata to the Investor and such other SAFEs and/or Preferred Stock in proportion to the full payments that would otherwise be due; and
- (iii) Senior to payments for Common Stock.

The Investor’s right to receive its Conversion Amount is (A) on par with payments for Common Stock and other SAFEs and/or Preferred Stock who are also receiving Conversion Amounts or Proceeds on a similar as-converted to Common Stock basis, and (B) junior to payments described in clauses (i) and (ii) above (in the latter case, to the extent such payments are Cash-Out Amounts or similar liquidation preferences).

Termination

This SAFE will automatically terminate (without relieving the Company of any obligations arising from a prior breach of or non-compliance with this SAFE) immediately following the earliest to occur of: (i) the issuance of SAFE Capital Stock to the Investor pursuant to the automatic conversion of this SAFE under the terms of the Crowd SAFE; or (ii) the payment, or setting aside for payment, of amounts due the Investor pursuant to Section 1(b) or Section 1(c) of the Crowd SAFE.
